# KETINIMŲ PROTOKOLAS

Viborg, October 31, 1996

## Letter of intent

On the basis of the established good co-operation relations between Viborg County Hospital, Denmark, and Palanga Rehabilitation Hospital, Lithuania, and results of the first technical investigations of the hospital performed by specialists from Viborg Hospital and Knudsen & Sorensen Consulting Engineers and Planners K/S, Denmark, we intend to prepare an energy efficiency programme for Palanga Rehabilitation Hospital.

The hospital is designed according to old Soviet standards and needs an overall upgrading to meet European standards and for possible reduction of resources for:

- heating
- electricity
- fresh and hot water
- waste water treatment.

In connection with a great interest in improving the energy resources management, the Palanga Rehabilitation Hospital is very interested in technical support from Knudsen & Sorensen and Viborg County Hospital for the preparation of the above mentioned programme and will provide all necessary local support for the programme preparation. On the basis of the prepared programme and the plan for investments, the Palanga Rehabilitation Hospital will seek credit resources for the project implementation.

Consulting Engineers Knudsen & Sorensen will prepare an energy efficiency programme including an investment plan in close co-operation with bought partners.

Viborg County Hospital will assist the Palanga Rehabilitation Hospital with the transfer of know-how and some second hand technical equipment for improvement (maintenance) of technical installations.

The following steps should be taken:

1. Knudsen & Sorensen in close co-operation with partners will prepare a project proposal before November 15, 1996.
2. Palanga Rehabilitation Hospital will present their application and the programme description to the Ministry of Energetics in Lithuania.
3. Viborg County Hospital in close co-ordination with Knudsen & Sorensen will supply to Palanga Rehabilitation Hospital good quality second hand equipment for the urgent improvement of the existing technical installations free of charge ab Viborg.

Financing of the technical assistance from Knudsen & Sorensen and Viborg Hospital and supplementary equipment for implementation of urgently needed improvements will be sought granted by means from the Danish Government Sector Programms for technical assistance to Eastern Europe.

Local manpower for the erection and accomodation for the Danish team during stays in Palanga will be financed by the Palanga Rehabilitation Hospital.

All activities related to the programme preparation will be co-ordinated by Knudsen & Sorensen and their Lithuanian partner UAB Litdania.

On behalf of  
Viborg County Hospital  
Director

Jens A. Dalgaard
